The plywood base is not perfectly square,
there is a slightly larger side.

Pipe Lengths		
Pipe #	Pipe Length	Distance Between Fittings
Pipe 1	24"	21.5"
Pipe 5	9"	6.5"
Pipe 6	7.25"	4.75"

The lack of Pipes 2-4 is due to the way the computer files are organized. Pipes 2-4 are only on the main Mellophone Cart, and Pipe 1 is shared by both the main and side carts.

Wheels should be flush with the corners.
